CHURCH MAINTENANCE GRANTS POLICY

1. Subject to the DBF having available funds grants and loans may be available to support repairs (and improvements) to church buildings and in exceptional circumstances to church halls and related buildings where the building is connected to the church. In general the DBF will not provide support for church halls and other buildings.
2. It is recognised that work on church buildings often includes elements of improvement as well as repair. The focus of the support is towards repair, but the existence of improvements will not prohibit a grant or loan, but pure improvement projects will not normally qualify.
3. The PCC will be working constructively with the DAC and have a creditable business case.
4. To qualify the PCC will have (i) free reserves of less than six months expenditure after the project has been completed (ii) reasonable giving levels or be making reasonable efforts to achieve these and (iii) normal other expenditure. (These conditions do not apply to cashflow timing loans.)
5. The PCC will be and intend to continue to be up to date with its parish share and be paying by standing order or be working with the Diocese to achieve this.
6. **Grants** – “standard” grants are expressions of support and may be available up to [£5k] and would not normally exceed 20% of the project cost. Larger grants may be available in exceptional circumstances.
7. Standard grants within the terms of the policy may be approved by the Diocesan Secretary out of the fund designated for the purpose. All grants will be reported to the Bishop’s Council.
